Question

What is Sliding/Upward Movement System ?

Answer

In case a vacancy arises, candidates who expressed willingness for the upward movement at the time of certificate verification will be considered for a movement to their best preferred upward choice of Degree and College based on merit and communal reservation.
An upward movement system will be followed for all online counselling based on vacancy.

Option	Implication	Remarks
Not willing for upward movement (Accept and join)	The candidate will be admitted to the course/college assigned.	The candidate will not be moved.
Willing for upward movement (Accept and upward)*	The candidate will be moved to his/her higher order of college/ course preference if a vacancy arises in the particular community.	If a community vacancy arises, he/ she will be moved, otherwise, the original allotment is retained. Once the candidate is moved to a higher choice, he/she cannot be reverted to the original allotment as it causes merit compromise and excess admissions. Based on the candidate's choice, he/she will be moved up till the end of counselling.
Not interested in joining (Decline and quit)	A candidate quit the TNAU counselling.	Will not be considered for further admissions in this academic year at TNAU.
